

Pistang Pinoy sa Kobe 2025

Global Research (Domestic) GLS203-Y54

Students from the Filipino Community Group participated as volunteers at Pistang Pilipino sa Kobe 2025, held on October 25–26 at Minato no Mori Park in Kobe. In collaboration with One Network Incorporated and Masayang Tahanan, all participating students worked as booth assistants, helping sell Filipino food and merchandise throughout the event. By interacting directly with visitors—many of whom were members of the Filipino community—the students gained valuable opportunities to practice English communication skills while experiencing Filipino culture in a lively, community-based setting.

In addition to their booth responsibilities, two students were assigned special supporting roles during the festival. One student served as a VIP Stage Assistant (marshall), assisting invited guests and supporting stage activities, while one student worked as a Backstage Assistant (runner), helping coordinate performers and ensure smooth backstage operations. These combined experiences allowed students to engage in hands-on event management within a multicultural environment. In recognition of their contributions, all participating students received Certificates of Appreciation for their volunteer service at Pistang Pilipino sa Kobe 2025.
